

One World Government: The destruction of America

May 7, 2009

The economic crisis which surfaced in 2008 was not a sudden, unexpected event caused by greed and incompetence. This is a calculated, planned crisis by those who want to bring about a New World Order/Government.

Congress was warned by President Bush and several economists of trouble within Freddie Mac and Fannie May six years before the crisis hit. Congressional hearings before the Senate and House banking/finance committees warned of the same two years ago. What sensible, intelligent person really believes the president, most Congressmen, Harvard MBAs, Ph.D. economists, etc. didn't see this coming. The ones in charge of fixing this problem are the very ones who created it.

There are players and puppets in the New World Government takeover; an idea as old as Babel and as new as Nazi Germany. In America in 1890 Cecil Rhodes formulated a plan to systematically infiltrate the government, educational system, financial system, and newspapers with elitist socialists.

Rhodes quickly formed The Society of the Elect with W.T. Stead, Sir Alfred (Lord) Milner, Lord Esher, and others. These men went on to form several secret societies such as the Circle of Initiates and Round Table Groups. Using his fortune from diamond and gold mines, Rhodes advanced his plans to destroy the sovereignty of America. He advocated creating such chaos that people would willingly forfeit their freedom to a world leader who would promise them relief.

On Nov. 21, 1933, President Franklin Roosevelt writes to Col. House: "The real truth of the matter is, as you and I know, that a financial element in the larger centers has owned government ever since the days of Andrew Jackson" (seventh president 1829-1837). Col. House is founder of the Council on Foreign Relations in 1921, chief adviser to President Wilson, and architect of the League of Nations Covenant. The CFR is a major force in instituting a world government.

Part 1. Lesson: To understand today's events realize that the One World Government movement is real and is controlled by some very wealthy and influential men.
